

Fernando Morales Gonzalez

Developer (Computer Systems Engineer)

Whoami

I'm a computer systems engineer with more than 5 years of experience, I had work with clients of many different business areas. Think about myself as a Full Stack Developer because I feel very comfortable working on backend and frontend, and also on DevOps. Through all of my professional experience I have been exposed and worked in diverse environments and people and I have been collaborating on develop, design, and deploy of applications and web systems with different design patterns, languages and technologies such as:

MicroServices, Rest API's, GraphQL API's, Javascript, Ruby , Ruby On Rails, MySQL, Redis, SqlServer, PostgresSql, MongoDB, AngularJS, NodeJs, etc.
