Victor H. Urquides Puentes

Developer (Computer Systems Engineer)

Whoami

I'm a computer systems engineer with more than 6 years of experience, I had work with clients of many different business areas. Think about myself as a Full Stack Developer because I feel very comfortable working on backend and frontend, and also on DevOps. Through all of my professional experience I have been exposed and worked in diverse environments and people and I have been collaborating on develop, design, and deploy of applications and web systems with different design patterns, languages and technologies such as:

MicroServices, SPA applications, Rest API's, GraphQL API's, Mobile Hybrid Apps, Javascript, Ruby, Python, Java, SQL Databases, No-SQL databases, etc.
